- Only plug in the coffee urn when you've put the water and grounds inside.
- Don't let the electrical cord hang off the edge of a table, so as to avoid accidents.
- Keep the coffee pot away from other electrical appliances.
- Don't touch the outside of the urn, as it will be very hot.
- Turn off the coffee urn when there are only a few cups of coffee remaining.
- Wait until the coffee pot is cool to handle it.
- Usually 1  $\frac{1}{2}$  Cups of Coffee Per Person
- 1 minute for each cup to brew
